About Me

I am a dedicated person with more than 4 years of experience as a software engineer and willing to take any other hard working task also. As a young energetic person always eager to learn new things and new skills which helps to deliver my task better.

Experience

- **Software Engineer**
Hitachi Digital Payments Solutions Ltd 06-2022 - 07-2024
Hitachi Digital Payments is a leading software provider of banking software development services for businesses. I have design and develop software applications using various programming languages and tools. (java springboot, sql database, angular, node, docker, azure)
- **Software Developer (Freelancing)**
Coduza (PVT) LTD. 01-2024 - 09-2024
Technologies used as goLang, rest api, postgresQL, git
- **Software Engineer**
HCL Technologies 08-2021 - 05-2022
HCL Technologies is a reputable company that offers software development services to companies in the IT sector. I've worked with several different technologies for the New Zealand customer, Fonterra (SAP Basis, ABAP).
- **Software Quality Assurance (Intern)**
Epic Lanka Technology 02-2018 - 08-2018
I have worked for Quality Assurance for Frimi Banking Mobile App (Android/ios) and Quality Assurance for BOC banking Mobile App (Android/ios).
- **Freelancer** 2017 - 2024
Worked as a freelancer, creating websites and software systems using PHP, Java, and MySQL to meet client needs. Also provided computer repair services, including troubleshooting hardware and software issues, while ensuring quality and timely delivery of projects.

Education

- **MSc Advanced Software Engineering**
University of Westminster, United Kingdom 2022 - 2024
- **Bachelor of Science Honours in Information Technology**
Sri Lanka Institute of Information Technology 2016 - 2021
